LOGICGATE

Empower Your Process. Automate Work. Mitigate Risk.

Agile LLC GRC Solutions

LogicGate is a GRC platform that leverages cutting-edge technology to help organizations transform mission critical governance, risk, and compliance processes by enhancing controls, increasing flexibility, and reducing risk.

The Power of LogicGate:

- Create a repeatable process for Risk and Compliance
- Eliminate your reliance on spreadsheets and emails
- Collaborate on a central source of truth
- Automate sending of assessments to business owners
- Modify your processes with ease as your program evolves
- Analyze and remediate issues with intelligent reporting
- Hold people accountable with automated follow-ups
- Customize LogicGate to your methodology — or use our proven process templates

Enterprise Risk Management	Information Security Risk
Third Party Risk Management	Audit Management
Policy & Procedure Management	Incident Management
GDPR Compliance	Regulatory Compliance

+ and more

Solutions:

The LogicGate platform enables organizations to easily create solutions to solve the challenges of Governance, Risk, and Compliance. LogicGate's pre-configured process templates can be easily customized and deployed to solve the most critical GRC issues, such as Exterprise Risk Management, Policy Management, GDPR, Regulatory Compliance, and more.
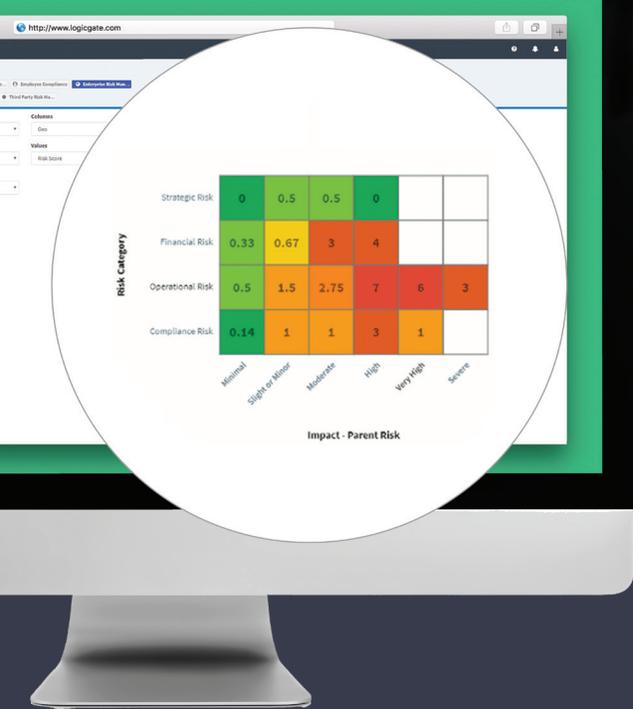

How it Works:

Unlimited Modules to Customize
Use LogicGate's best practice modules to get started quickly. Then use our drag-and-drop editor to build GRC workflows that match your business rules. Define logic at each step that drive your decisions — automatically escalating issues and requests to the right person, at the right time.

Create Dynamic Relationships
LogicGate's relationship engine allows you to link policies, risks, compliance requirements, and regulations across disparate business units and functions.

Delegate & Track Tasks
Easily assign and monitor tasks across the organization, delegate authority, and remove process failure points that lead to costly errors — all while using familiar workflow steps, terminology, and fields that you can customize.

Make Better Decisions
LogicGate gives you the tools to effectively monitor the health and performance across your program with analytic drag-and-drop dashboards you can customize in minutes.
